OBJECTIVES

Work as Tech Lead, Architect or Software Engineer using .Net technologies to overcome challenges and contribute to the development and growth of the company and its clients.

EDUCATION

Bachelor of Computer Science, concluded.

Graduate Studies in Software Engineering, in progress.

PROFESSIONAL EXPERIENCE

2016 - until now. Governança Brasil - GOVBR

Position: Tech Lead

Main activities: I work in the team responsible for the development of modules related to HR, People Management and Payroll. I guide developers to use design patterns and development best practices, do code reviews, and define software standards and architectures that will be used in our applications. I promote collaboration and knowledge sharing among team members, and, together with the Scrum Master, I ensure agile methodology principles are applied day-to-day.

2015 – 2016. Bitmake¹

Role: Entrepreneur

Main activities: I started my own company, www.bitmake.com.br where i offer some services like: websites, custom software development, e-commerces, sharepoint consulting, and others. It gives me the opportunity to work with multicultural and distributed teams in challenging projects. As a company diretor i can improve my non-technical characteristics like: be self motivated, be self-organized, be adaptative, work with tight deadlines, how to negotiate and how to deliver value as soon as possible.

2013 – 2015. Megawork

Role: .Net / Sharepoint Developer

Main activities: Development of systems, internet and intranet portals in Sharepoint for large companies from different branches of activity, among which i can mention: Vale, Votorantim Group, Samarco Mining, Butantan Institute, Hortifruti, among others. My responsibilities were designing, planning, installing and configuring Sharepoint server farm infrastructure; design information systems, requirements gathering, modeling and prototyping, development and implementation of those systems.

2010 – 2013. Quay Consulting and Systems

Role: .Net Developer

Main activities: Development of systems, internet portals and intranet for large companies from different branches of activity, design information systems, requirements gathering, modeling and prototyping systems and implementation of those systems.

Among some clients for whom i developed, I quote: Tractebel Energia, Bunge, Marisol, COPEL Foundation, etc.

2009. Prismafive Informática

Role: .Net Developer

Main activities: Development of systems using technologies such as ASP.NET, WPF and Silverlight. Migration of systems written in COBOL and Delphi to C # and WPF.

TRAINING COURSES

- Programming with Microsoft Visual Basic .NET 40 h (Microsoft Official Training Course).
- C# ASP.NET Development 40 h (Particular Course).
- Spanish (Basics) 20 h.

TECHNICAL CHARACTERISTICS:

SOFTWARE DEVELOPMENT: Advanced knowledge in .Net technologies for web development like ASP.NET Webforms, ASP.Net MVC, and Sharepoint. For desktop applications, WindowsForms, WPF and Microsoft Kinect (motion sensor).

LANGUAGES: C#, VB.Net, Javascript, JAVA, VB6.

DATABASES: Advanced knowledge in SQL Server, Oracle and Postgres. BD Design and modeling;

ARCHITECTURE AND SOFTWARE ANALYSIS: Requirements gathering, identification and modeling of use cases, business class modeling with UML, distributed software architecture.

OTHERS: Scrum, TDD, SOLID Principles, Design Patterns

LANGUAGES

PORTUGUESE:	Reading (Fluent)	Writing (Fluent)	Conversation (Fluent)
ENGLISH:	Reading (Fluent)	Writing (Fluent)	Conversation (Fluent)
SPANISH:	Reading (Fluent)	Writing (Intermediate)	Conversation (Basic)

ADDITIONAL INFORMATION

PERSONAL CHARACTERISTICS: Great interpersonal skills, customer service excellence, ease of learning, ease of teamwork, taste for challenges, learning new technologies, sharing and exchange of knowledge, focus on quality and commitment.
